

2021 FABIC SYMPOSIUM

CHALLENGING FOR FUTURE VALUE DISCOVERY, DIALOGUE WITH INNOVATION

Sunday, Sep. 26, 2021
13:00-15:30

With the drastic changes in the social and economic environment and the accelerating technological innovation, the important points are the "thinking" and "action" of the organization and individual both.
For the sustainable prosperity of the earth and the people in the future,
we must take it seriously, think about it, and take action.
We are very pleased to think together what we can do and what we should do now for the future.
We look forward to seeing you here.
